

Welcome to the New Age of Digital X-Ray

A complete digital x-ray solution designed for low volume practices from the world's leader in digital imaging.

The FCR Prima™ is the newest member of Fujifilm's digital x-ray family of products customized for private practices. It has been designed to meet the needs of low imaging volume practices without compromising image quality. FCR Prima is one of the most compact and lightweight CR systems available. Taking up less than 2.5 sq. ft, FCR Prima can be installed virtually anywhere.

FCR PRIMA

Exceptional image quality, every time.

FCR Prima scans at 10 pixels/mm (5 LP/MM) giving you sharp image detail. Only Fujifilm offers Image Intelligence™ – the culmination of over seventy years of image processing experience for stable, optimized, and high-quality images every time.

Durability you can rely on.

FCR systems have proven reliability to meet the rigors of the private practice, thanks to the intelligent design and built-in redundancy features that prevents problems before they can occur. FCR's minimal contact cassette, dust cover and internal optical scanning brush prevents dust artifacts and maximizes uptime.
